

Ask Yourself Why

Ask yourself, why you would vote for anyone who is already working in our troubled law enforcement system?

My opponent says if he is elected, he will bring Canon City Police Department over to the Fremont County Sheriff's Department. Let's look at this concept for a minute.

The demographics and the needs of the people in these separate areas are very different. The way of life is so much different. Plus over the last year, the Canon City Police Department has had two officers put on administrative leave with pay. One was eventually charged with a crime and the other resigned before charges were filed.

Canon City Police Department is also seven officers short within their ranks. The Fremont County Sheriff's Department is also down eight people in the jail and five more on patrol. Doesn't it seem to you that there is something wrong in both departments? Is it the leadership, morale, wages or something else? We can't just transfer one problem over to another department by electing someone who is already part of the problem.

When elected, I will reset the standards and ethics within the Sheriff's Department. It's time we become firm, fair, and consistent. As you know, good leadership brings about good changes.

My staff and I will be accountable to you the public with respect and dignity. We will work for you - the people of rural Fremont County.

The time has come to make positive changes and only you, the people, can make that happen by voting in new leadership. Let's not transfer another department's problems over to the Fremont County Sheriff's Department. It already has enough issues that must be addressed and solved.

Please vote for James Boyd Canterbury for Sheriff on November 6th as your part in installing the leadership needed to clean up the current problems and get our Sheriff's Department working professionally for you once again.
